

## ODS and The Case for Liberation

ODS is not a grass-root Palestinian mass movement, like say PLO, Hamas, PFLP or Islamic Jihad, rather it is the brainchild of a (1) **handful of Jewish "israelis"** intellectuals who have the insight to see the dark future "israel" has created for itself and others, along with (2) **few Palestinian peace activists** who work in sync with their Jewish "israel" counterparts (rather than working with Palestinian resistance), and (3) **some diaspora (kosher term for exiled) Palestinian intellectuals**, who lost touch with reality on the ground and imagine that by writing an scholarly paper or an academic book would solve the Palestinian problem and sets the records straight.

When working with Jewish "israelis" or Jewish supporters, Palestinians shouldn't be blamed if they exercised caution and prudence.

Trust is a beautiful quality that we should cherish as humans, and we DO as Palestinians, (to an healthy and even lethal degree sometimes), however, due to the nature of the relationship and the extended experience, we would be foolish to exclude or ignore the possibility of the existence of elements who seek infiltration, gate-keeping, controlling the narrative, steering the discourse or those with conflict of interest who harbour dual loyalty.

After they threw us in abyss for nearly three decades spinning in the mirage of "peace" and "peace process", meanwhile they were able to fortify their power, tighten their grip, steal more land, multiply the number of settlers, anchor the second generation in our land and destroy all neighbouring states with potential threat to them.

After they have altered the situation on the ground beyond recognition, they are now attending the next stage, which will be in my opinion far more dangerous than ever

After Zionism achieved its goals in the establishment of a national homeland for Jews of the world, and in the name of the lie 'equality, peace and stability, prosperity and love' they are now moving to the final stage of their supremacist destructive tribal colonial project, the phase of 'renouncing Zionism' by taking off the robe of discrimination and wearing the garment of purity and chastity so that they can finally enjoy what they have looted with our blessing and without any resistance.

Their new project, presented by a tiny marginal segment of the Israeli academic left, the so-called renunciation of Zionism and the overthrow of the system of the right-wing Israeli state in order to **preserve the gains of six million Israeli Jews and protect them from any future legal prosecution for War Crimes and Crimes Against Humanity, for a period of over seven decades.**

The purpose is to remain safe and secure in the land they have raped and distorted its landscape, "equals" amongst the people whom they soaked in their blood for decades, without mercy or humanity.

Their new project, in which we are presented with poisoned honey, is the renunciation of the crusts and the retention of the heart, as a snake does, shedding away its old skin only to grow bigger, stronger and more savage.

It is the so called One Democratic State, ODS

The goal of this mined step, in which mercy and justice are claimed to be the intention, is to enable six million foreign invaders and occupiers to stay on the stolen land forever and to retain what they looted and raped, but with the consent and blessing of those who they oppressed and with the preservation and protection of the law.

### **Some facts:**

- "israel" is the materialisation and manifestation of Zionism (Jewish nationalism)

- "israel" has been established **ILLEGALLY** \* by wars of aggression, ethnic cleansing and slow ongoing genocide (the only way it would gain legitimacy is by **Palestinian consent**). No wonder they are craving for Palestinians consent and to acknowledge the permanent presence of "israelis" on their land.
- Through decades of vacuous "negotiation" coupled with brutal occupation "israel" has proven to Palestinians and the world to be **untrustworthy**. As we have seen time and again, all "peace talks" or "road maps" have been proven to be lies, used to gain time in order to create irreversible facts on the grounds, expansion of colonies, land theft and intensifying its genocidal attacks to propel its ethnocentric supremacist project at the expense of indigenous Palestinians.

**ODS is the OSLO of tomorrow:**

**Considering the above, I see ODS as more dangerous than the two state solution, it is unworkable and unrealistic and has no chance of ever materialising, it is a dead-end road, for the following reasons:**

The two states handed over 80% of historic Palestine to illegal occupiers, however ODS would be willingly and voluntarily offering 100% of Palestine, as a trophy to those who captured the land terror.

**The dangers within:**

We are dealing with a **genocidal, ideological supremacist, power-driven hegemonists**, and **dishonest collective**, (these claims can be easily qualified using hard evidence (from their own texts and practices)).

**The way they justify the above is through the use of "law", not ethics, or morality, and they create and modify the law as they see fit.**

While we sit here discussing the fantasy of ODS, "israel" with its Jewish supremacist fanatics are **INTENSIFYING their WARMONGERING, AGGRESSION**

**and THEFT of land.** The daily bombing and murdering of Palestinians, business as usual. Invading, confiscating, demolishing more of Palestinian homes than ever, forcing native Palestinians owner out to be replaced by Jewish occupiers. The perpetual, almost daily, assault on Al-Aqsa mosque has been intensifying for some years now. The plans for the destruction of the mosque to build their satanic temple on its ruins, are rolled out, even the attire of the high priests are ready !

- While we sit here discussing this fantasy, "israel" is already piling and **filling for lawsuits against the entirety of Arab world, requesting "compensation" for Jews who left those countries and colonised Palestine.** ( as continuation of THEFT of "gentiles' wealth, as well as using it as pressure card against Palestinian Right of Return)
- While we sit here discussing this fantasy, **tens of thousands of international Jews continue to flood and occupy Palestine as we speak,** integrating in this monstrous construct and participating in the ongoing oppression and slow genocide.
- No one knows how many of world Jewry are actually carriers of "israeli" citizenship, if my hunch is correct, the number of **Jewish "israelis" who are living abroad could be in the millions.** Those can be called at any minute if need be, to tip the scale of **voting for the advantage of Jews** if any future necessity is demanded. So the **dream of having a significant Palestinian majority is aborted before conception.**
- The **ONLY** way that Jewish "israelis" may obtain the much needed **"legitimacy"** they so much craving for. Namely, **luring Palestinian to accept and give their consent to the FINALIZATION of the everlasting TAKEOVER of 100% of Palestine**

- ODS is a **death sentence proclaimed against the legitimate resistance movement and the inalienable right of Palestinians to seek liberation** from occupation by all means according to moral and legal laws, including arms struggle. It undermines all the sacrifices, and disarms Palestinians from their only form of protection and defence. It alienates the majority of Palestinians both at home and in exile whose aspiration is to see their land free and liberated.
- **ODS means an expanded "greater israel" annexing permanently** whatever little that remained of Palestine is catastrophic for world peace and stability as it would **justify and legitimise Wars of Conquest and gives precedence to normalisation of barbarity and savagery and theft**
- It is **catastrophic on the level of human morality, ethical evolution and conscience (I want it I take. I kill, I get away with murder)**
- It will enable "israel", a collective of IDEOLOGICAL SUPREMACIST, EXCLUSIONISTS and EXPANSIONISTS to **keep the loot** while still **holding on all apparatus of power, military, finance, political, educational, social..etc**, without facing justice or penalty for their crimes.

How do any sane person expect and advocate that Palestinians to "coexist" with a group that is hellbent on **exterminating** them as a matter of ideology?

Do you not then become complicit in misleading Palestinians into a certain horrific future, where extermination is the name of their game?

I couldn't envisage a worse scenario

Unless people realise that we are dealing with IDEOLOGICAL SUPREMACISTS, who do NOT accept the other as fully human let alone and equal, Palestinians will continue to languish.

The active and continuous concealment or dismissal of such crucial element for decades is the main cause of the continuation of the suffering of Palestinians

After the exposure of the utter hypocrisy of "israel wants peace" mantra, with the failure of the "two states solution", people will come to realise the futility of ODS and will come to understand the true nature of the beast, and that the real obstacle for peace is the IDEOLOGICAL SUPREMACIST component in that artificial society.

Understanding this crucial component of IDEOLOGICAL SUPREMACY which has been the motor and driving factor of "israel's" perpetual aggression and warmongering makes the luring of one state solution" yet a bigger form of deception. Juxtaposing the Palestinian struggle to fit the apartheid model of South Africa or black America is fundamentally erroneous because it presents the Zionist entity as a normal state with few apartheid discriminatory policies that can be changed.

This couldn't be farthest from truth:

What is happening in Palestine is not mere segregation and apartheid, what is going on is ethnic cleansing, wiping a country off the map, and slow genocide.

Racism in the "Jewish state" is ideological, grounded in "sacred" texts, cultural practices, and the inherent concept of "chosen-ness,"—unlike South Africa in which racism was a momentary convenience, reflecting opportunistic fulfilment of self-interest of a white minority.

When activists are intoxicated with the deceptive mantra of "Equal rights, One State, Two People, equal rights" offered as the best formula and ideal model of solution rather than other successful models of Liberation, such as Algeria for example, that means they participate in whitewashing and rewarding the century-

ongoing Zionist crimes. Such a paradigm gives a respite and a leeway to the thriving of an illegal genocidal **expansionist** racist entity... and would mean blessing the **expansion** of “israel” and granting the Zionist occupier a comprehensive and “peaceful” takeover, and unrestricted control over our land and our lives.

Like North America, South Africa was conquered and subsequently ruled by white Europeans several centuries ago, i.e. **before International Law adopted through the Nuremberg Principles right after WW2, explicitly prohibiting land acquisition through military conquest, and clearly defined Crimes Against Humanity**—amidst them:

Wars of Aggression and Conquest,  
Genocide and Instigation of Wars and Crimes against Peace,  
and War Crimes to be the worst categories of crimes

All these have been, and still are in even worse manner, perpetrated by Jewish “israelis.”

Furthermore, this “one-state, two people” approach fully ignores the unbalanced premise of the reality on the ground, and the implication such a proposal would have— namely the finalisation of the aims of the racist, expansionist and exclusionary Jewish Nationalist experiment called “Israel.”

It would de facto annex all residual Palestinian post-1967 Bantustans, and attach them to what would inevitably be “israel” no matter what convoluted name would be attached to. Because indeed, there is no need to be a rocket scientist to know full well who would keep the arsenal, who would keep the apparatus of power, judicial, military, educational, political, executive, financial, etc.

All the while the demand granting equal rights to all, includes supremacists and invaders who have no historic or legal rights to the land, who are still flocking to Palestine as we speak, armed to the teeth by their support networks in US-America, in other words, these are active dangerous psychopathic criminals.

Zionist Jews did not come to Palestine with olive branches to begin with, they did not come with peaceful intentions of coexistence with the indigenous population. They gushed in like savages, terrorising unarmed peaceful farmers and land tenders, they tortured and imprisoned, they came to destroy, “cleanse,” conquer and dominate.

A century on, their racist ideology, their use of terror, and their abominable psychopathic behaviour has only intensified, and drastically. The vast majority of that artificial “society” —and for very specific supremacist ideological reasons— are unwilling/ incapable of viewing the “other” as equal... and over the passing of time they have shown to be unwilling to become modest or peaceful, let alone remain peaceful.

Would any decent human-being force a mother to marry the murderer of her child?

Would any decent human-being find it acceptable to force a child to live with his paedophile abuser?

Would any decent human-being accuse these people, child and mother, of “immorality” or call them “unrealistic” for refusing to tie their future with their abusers?

Through the delusional “Equal Rights, One State, Two People” proposal, the facts on the grounds would remain unchanged, and probably aggravated, since these facts— lock, stock, and barrel— would remain in the hands of ideological supremacists.

What is wrong in “israel” as an occupation, a political system, and an artificial society is far, far worse than mere segregation and apartheid... What is wrong is the IDEOLOGICAL RACISM and SUPREMACY having its roots at the core of the concept of being “chosen,” then going downhill to hell from there.

So highlighting the “undemocratic” part of that society and trying to “fix” it, when the **rot is at the core** is like pointing at the a long fingernail of a person dying of

cancer and saying, we think it would help to show the doctor that your fingernail has overgrown and needs cutting off.

The problem is not mere lack of democracy, the problem is a disturbed mindset, resulted from multi-generational indoctrination with the illusion of superiority, the delusion of “unique suffering and persecution,” and the fantasy of “entitlement,” all this by a majority of a community. (70% of “Israeli Jews” believe Jews are the “chosen.”)

It is not the undemocratic system that we need to focus on and to change. It is the MINDSET of a people.

By now, to the majority of the rest of the world, it's pretty obvious that this people's perspective, education, and understanding of history has been constructed on myths and lies which do not correspond to reality. Their moral upbringing has been encapsulated in the narrowness of tribalism, instead of the vastness of universalism; the illusion of their “chosen-ness” hence, the delusion of their intellectual and moral “superiority;” and the uniqueness and special-ness of their suffering.

Their worldview and perception of the other is twisted and distorted by the scarecrow of “antisemitism” as an inherent quality in the world which necessitates everlasting ghettoisation and separation from the “boogy-gentile” who is forever “chasing” after them because of some mysterious and inexplicable reasons the entire people of the world are born with: “intrinsic hatred towards Jews!”

To their utter disadvantage they have been born into a community of many, many myths, which is sad and unfortunate. But I believe that every human no matter how disadvantageous their situation may be, is equipped with an inherent moral compass, therefore would be capable to break away if they so well desire and aspire.

“israelis” who claim to have understood the role of their community in the creation and continuation of Palestinian Nakba, those who claim to be disgusted with the crimes of their society, those who say they feel remorseful and repentant, if they are indeed honest, then the least they can do is to show some signs of sincerity—meaning to show the desire and determination to correct the mistakes of their “people.”

Only then, their victims may investigate the fragile alleys of forgiveness or punishment. The victims should have the last say irrespective of what their judgment may be, they should not be vilified, indicted, or moralised upon, for they have suffered more than enough for almost a century.

The emergence of forgiveness and reconciliation requires certain conditions:

Stopping the crime

Admitting of guilt

Asking for pardon

And, most important, rectifying the wrong

None of these conditions are ever considered an option among that mighty, sick, racist Zionist society as a collective.

Those very few individuals who show some support for Palestinians are rarely, if ever, able to accept even the return of refugees. They never go beyond calling for “equal rights.” That is, they NEVER go as far as total restitution and reinstatement of all property and rights to the dispossessed Palestinians.

Morally blinded (by self interest) and submerged in dishonesty (due to the conflict of interest) they pretend not see that such an approach is fatally flawed from its inception. For it equates between aggressors and victims. It absolves criminals from being prosecuted by laws of justice, and it absolves them from giving back real assets of land and property.

If Jewish “israeli” peace activists fail to see the lopsided morality in such approach, then they need to go back on their knees for some self-reflection and pray to see some light that might help restore their humanity.

In my entire life, I have met personally with two, only two ex-“israeli,” Gilad Atzmon, and Zohar. Gilad calls himself self-exiled Palestinian Hebrew. He vehemently rejects “israel” with all its aggression, violence, theft, and supremacy. He took the most admirable stance by imposing exile upon himself even though he was born in a settlement near Al-Quds/ Palestine, because he morally refuses to be part of that racist criminal society.

Such is my brother, such is a person of moral rectitude who is worthy of Palestinian citizenship upon liberation of Palestine.

Make no mistake, the fate of Palestine will be the forbearing sign indicating the shape of the future of International Relationships. By failing to liberate Palestine, we forfeit International Law, and that unambiguously opens the gates to an abyss. Any predatory group equipped with some military, would be vindicated to conquer and destroy whatever they want, wherever they want, on the primitive basis of military force. Basically a staggering regression back into the Stone Age methodology, expanded globally by contemporaneous weaponry’s range and effect, which is biocidal, and instantaneous.

“israel” is NOT a form of benign "settler colonialism and apartheid" it is far far worse than that; Zionism is a malignant expression of Jewish ideological nationalism, a hegemonic ideology which seeks fulfilling it's goals by ethnic cleansing, genocide and perpetual wars of conquest and expansion

ODS would guarantee the permanent presence of GENOCIDAL SUPREMACISTS in Palestine while gaining “legality” with Palestinian consent, and anchoring their military and financial power, intensifying their control, keeping the loot and securing themselves with “peace treaties”.

And while the Arab Muslims remain majority in greater region, the Jewish-“Israeli” total hegemony and dominance; financial, economical, militaristic, technological, administrative, educational, would be guaranteed.

This dangerous strategic move would be to offer a “solution” which would lure Palestinians by nominally less oppression, by feigning “equality” while knowing that in reality the Jewish hegemony will remain de-facto, due to the huge economical, technological, industrial, and of course military gap between the two groups. **Nothing, absolutely nothing in the Jewish state exhibits a willingness to relinquish any part of their control over all apparatus of power in the region.** And it is an irrefutable fact, demonstrated by a century of nefarious “facts on the ground” that the Jewish Zionists who invaded Palestine and their aggravated offspring, will never voluntarily relinquish their weaponry, military, and aggressive violence.

Add to this unsettling scenario the most horrific component of ideological supremacy which would no doubt manifest in an explosion of settler violence against Palestinians who are seen as mere slaves created only to serve Jews.

That is the horrific proposal, a strategic move of the so called “One Democratic State”, “with Equal Rights to All its Citizens”. Such a lofty romantic title is very luring and some can be deceived by it, as they were by the Oslo, except that it is a cruel misnomer, a sirens’ song to fool and victimise, one last lethal time.

“It is easier to fool people than to convince them that they have been fooled” as goes the adage sometimes attributed to Mark Twain

Leading Palestinians by the nose, dangling the carrot of “One Democratic State” and promising them of a “bright” joined future with their persecutors, while knowing fair well that the promised crumbs will never come to fruition, exactly as the crumbs of Oslo, due to the fact-on-the-ground dominance coupled with lethal ideological supremacy.

Therefore, “ODS-Equal Rights”, is not only an act of egregious deception, it is designed to perpetuate wars and genocide, by rewarding sadistic terrorists, thus it is an act of betrayal to humanity.

**The case for liberation:**

In conclusion, in this war-ridden era it has become a matter of acute urgency and prime importance, that Nations reconvene as a Community, to fulfil their responsibility to Restore International Law, as well as to affirm universal principles of ethics, in order to stop the bloodshed and destruction of our beautiful planet, by stopping predators and warmongers by all means necessary. Generally unknown, ignored, dismissed, and unspoken of by activists in the West, but these are the true aspirations of most Palestinians:

**FULL LIBERATION of Historic Palestine.** The Holy Land must be free from racists committing atrocities. A way must be found, to bring reason to the Holy Land, and there is no other way than to evict foreign criminals. Keep in mind that before the invasion by Jewish foreigners, Palestine was characterised by the harmonious coexistence between, respectively, a Palestinian Muslim majority, a Palestinian Christian minority, and a Palestinian Jewish minority. To restore this harmonious cohesive fabric is the only way forward.

**FULL SOVEREIGNTY of the Palestinian Nation** over their ancestral country: Palestine, with a constitution and a political system of their own independent choice. For the sake of International Peace and Security.

**PROSECUTION OF WAR CRIMINALS**, plans of which should start without delay. A Palestinian judicial and immigration system will, respectively, prosecute former “israeli” criminals and their associates, and/or grant or decline on an individual basis, a Right to Remain, based on criteria solely to be defined by said Immigration and Integration Services. Anyone who can prove non-participation in the ex-israeli

occupation apparatus, and who has demonstrated ability and willingness to a respectable and law-abiding conduct, will probably obtain a chance to gain unrestricted Palestinian citizenship, with equal rights.

**RETURN, RESTITUTION and COMPENSATIONS:** Palestinian refugees have the unconditional Right of Return. Palestine and the Palestinian Nation at large, are entitled to full and unconditional Restitution of their land and property whenever possible, assorted with appropriate Compensation for more than seven decades of deprivation and slow genocide, Cultural Destruction, and a whole array of atrocities and usurpation.

When we talk about RESTITUTION , we mean restoration of property and rights previously taken away, restoration of destroyed villages to the former or original state, and reparation made by giving an equivalent in current value when restoration is not possible, and compensation for loss, damage, and injury caused for the entire period of occupation since 1948.

**RESTITUTION** meaning:

The act of restoring to the rightful owner something that has been taken away, lost, or surrendered.

The act of making good or compensating for loss, damage, or injury; indemnification.

A return to or restoration of a previous state or position.

Now, the question is:

Would you or any “israeli” Jew be interested to join us in our struggle for LIBERATION as one of us, as an ex-”israeli” and a future Palestinian?

The revocation of Israel’s UN membership is a necessity, as a step towards the rehabilitation of the already-battered framework of International Law. Concurrently, all of Israel’s institutions, laws, policies and practices must be abolished, since they discriminate against people based on religion and ethnicity.

## **No alternative to the Algerian model of FULL LIBERATION.**

So friends, **THINK ALGERIA** ... It has only been few decades ago since Algeria gained its liberation from French SETTLER COLONIZATION, which lasted almost 150 years.

**When I talk about the Algerian model I mean:**

**REVOKING ISRAEL'S UN MEMBERSHIP:** The racist genocidal occupation entity, which was in breach of UN Charters, which has violated and defied more UN resolutions and charter principles than any other. This illegitimate entity has no moral or legal ground whatsoever to be a member of the UN. Its membership is a disgrace on the face of humanity and a mockery of International Law. Israel's UN membership should have never happened in the first place.

**FULL SOVEREIGNTY** of the Palestinian Nation over their ancestral country: Palestine, with a constitution and a political system of their own independent choice. That is least that can be done to compensate for the a century of aggression, thievery, and unwarranted subjugation.

**PROSECUTION OF WAR CRIMINALS:** plans of which should start immediately without delay, A Palestinian JUDICIARY and IMMIGRATION System, will respectively prosecute former "Israeli" criminals and their associates, and/or grant or decline on an individual basis, a RIGHT TO REMAIN, based on criteria solely to be defined by said Immigration and Integration Services, which would take into consideration the history of the individuals and the level of their participation in maintaining the occupation.

**NATIONALISATION AND PALESTINIAN CITIZENSHIP:** anyone who can prove non-participation in the ex-Israeli occupation apparatus, and who has demonstrated ability and willingness to a respectable and law-abiding conduct, will probably obtain a chance to gain unrestricted Palestinian citizenship, with

equal rights... Jewish “Israelis” also have the right to go back to wherever country they came from, they have the same right to return to their native countries.

**RETURN, RESTITUTION AND COMPENSATIONS:** Palestine and the Palestinian Nation at large, are entitled to full and unconditional Restitution of their land and property whenever possible, assorted with appropriate Compensation for more than seven decades of deprivation and slow genocide, Cultural destruction, and a whole array of atrocities and usurpation..

It is pretty obvious that the model I propose will not be welcomed by “Israelis”, nor will it come about by the “return” to negotiation no matter how intense the rounds may become. It will not happen by “road maps” either, nor by sudden change of heart coupled with pure acts of kindness and generosity of “Israelis”

**RESISTANCE, is the keyword.**

Moreover, “Israel” cannot afford peace; it relies on wars, wars and more wars for its very internal survival.

“Israel” cannot afford to live even for a moment of real permanent peace, simply because its INTERNAL SURVIVAL requires an ever present “EXTERNAL THREAT”, which allows that incohesive assortment of people to stick together and prevents that society from imploding from within.

That society is divided more than anyone could imagine. But its ills are concealed by an utterly exaggerated bordering mythical history of persecution, and an extremely terrifying future with a holocaust around every corner and a new Hitler popping his head in different country each time. Thus turning their present into a perpetual war-preparation and being in a permanent standby state.

Furthermore, in such state of affairs, i.e with this need for wars to stay alive, there is another crucial component, “Israel” cannot afford to lose any of its wars. Any loss for “Israel” is an END GAME.... GAME OVER.

Logically speaking:

1) If “israel” gets peace ==> “israel” would implode from within ==> **GAME OVER**

2) If “israe” continues wars of aggression ==> For it to survive, “israel” must win every single war ==>

“israel” is bound to lose one war ==> **GAME OVER**

**For them, it is simply a lose lose situation... For us, to gain liberation, it is only a matter of time and patience, and Palestinians have got plenty of both.**

Palestinian poet Rachid Husain:

I’m against my country’s fighters hurting a single ear of corn..

I’m against a child , any child having to carry a gun..

I’m against my sister learning weapons drills..

But after the burning of my land..

And my friends and my youth..

How can my poems not become guns?

## **Addendum**

### **\* ILLEGALLY:**

- No foreign government, international institution or individual, has any form of legitimacy or jurisdiction to dispossess any other Nation by distributing their land and property,
- All colonial dealings regarding Palestine, whether by the “League of Nations” or the subsequent land confiscations by British colonial forces, as well as coerced transactions by early Zionists, did not invalidate the irrefutable fact that

Palestine is the sole indigenous representative of all people of Palestine, settled and anchored culturally to the land since time immemorial,

- The decision to partition Palestine was never passed through the UN Security Council, which renders it non-binding, (serving only as advisory),
- The admission of “Israel” to the UN was conditional on its implementation of Resolutions 194, i.e., ceasing aggression and allowing the Palestinian refugees to return to their homes and properties, as well as implementing Resolution 181 of the partition plan, (which Israel did not commit itself to any specific action or time-frame, and later rejected the resolutions all together),
- The UN General Assembly adopted resolution (181) recommending the adoption and implementation of the Partition Plan, allocating to “Israel” a defined area significantly smaller than the areas was overridden by Zionist Terror groups such as Irgun and Haganah, using ethnic cleansing, genocidal massacres, and massive destruction of over 530 Biblical villages and cities in the spring of 1948,
- The Palestinian Nation, the sole indigenous people of historic Palestine, had neither been consulted with, nor did we agree to or undersign any partition of our homeland, Palestine, when the UN put partition to the vote in the General Assembly in 1948. The UN has never done so again,

Thus, it is evident that under International Law, this artificial terrorist entity is ILLEGITIMATE and has NO RIGHT to exit.
